Objective

Results-driven **Laravel Developer** with 2 years 10 months of experience designing and developing scalable web applications and RESTful APIs. Proficient in Laravel framework, MVC architecture, MySQL database design, and API integration. Experienced in multi-role authentication systems, e-commerce platforms, admin panels, and performance optimization. Strong client communication and project coordination skills with a focus on delivering secure and efficient backend solutions.

Skills

- **Languages:** PHP, JavaScript and Ajax
- **Frameworks:** Laravel
- **Frontend:** HTML5, CSS3, Bootstrap, jQuery
- **Database:** MySQL, Eloquent ORM
- **Version Control:** Git, Bitbucket
- **Architecture:** MVC, RESTful APIs, RBAC
- **Other Skills:** API Integration, Payment Gateway Integration, Database Optimization, Caching, KYC & GST API Integration

Professional Experience

PHP Laravel Developer   Mar 2023 - Present

Risians Technology Pvt Ltd , C-II/203, New Ashok Nagar, New Delhi -110096

- Developed and maintained scalable Laravel-based web and mobile applications.
- Designed and implemented RESTful APIs for e-commerce, healthcare, and multi-vendor systems.
- Built multi-role authentication systems (Admin, Seller, Distributor, User).
- Integrated payment gateways, OTP authentication, GST & KYC APIs
- Optimized API response times using caching and database indexing.
- Implemented Role-Based Access Control (RBAC).
- Collaborated directly with clients to gather requirements and deliver tailored solutions.
- Debugged and resolved complex production issues across multiple projects.

Business Development Executive   Aug 2022 – Jan 2023

Sizh Solution Pvt Ltd , D-52, D Block, Sector 2, Noida, UttarPradesh, Pin code-201301

- Coordinated with developers and clients for project requirement analysis.
- Managed online bidding platforms (Upwork, Freelancer, Fiverr).
- Oversaw project timelines and ensured on-time delivery
- Assisted in web application maintenance and documentation.

Key Projects

- **Kash Quiz App for Android/iOS**
  - Developed User Authentication APIs and Quiz Management APIs.
  - Implemented caching to improve API performance.
  - Created admin panel for quiz and user management.
  - Integrated third-party APIs.
- **Rivix Website and Application E-commerce Platform**
  - Developed REST APIs for mobile applications.
  - Designed seller dashboards for product/order management.
  - Implemented coupon systems and state-wise pricing.
  - Integrated secure payment gateways.
- **Heal-Sudan**
  - **Dynamic Form Builder:** Created an admin panel with text, dropdowns, checkboxes, etc., conditional logic, and customization.
  - **Case Registration & Tracking:** Allowed easy registration and tracking of cases (Pending, In Progress, Closed) with key date monitoring.
  - **Notifications:** Automated email/SMS alerts for case updates, reminders for hearings/deadlines.
  - **Reports:** Enabled data export (CSV/Excel) and report generation by case type/status.
- **Truemed Healthcare Platform**
  - **Appointment Booking:** Real-time scheduling with doctors and diagnostic centers; automated reminders via SMS/email.
  - **Doctor Profiles:** Built detailed doctor profiles with qualifications, specialties, ratings, and reviews.
- **SEH**
  - Developed a website to provide resources and information about horse accessories and healthcare.
  - **Consultation Services**: Integrated a system for users to book consultations with specialized equine doctors.
  - Detailed profiles for doctors and healthcare professionals, including qualifications, specialties, and patient reviews.

- **Zikhara Solutions**
  - Developed a website to provide resources and information about construction accessories and equipment.
  - Admins can create, customize, and manage Website and Create multiple forms
  - Conditional logic feature to show/hide fields based on previous responses.

- **Acero Building Systems**
  - Built a content approval workflow allowing staff to propose updates reviewed by admins.
  - Implemented real-time notifications for approval/rejection status.
  - Designed role-based access control for staff, reviewers, and admins.
  - Ensured secure data handling and developed a responsive design for web and mobile.
- **DPT**
  - Developed subscription management with flexible plans.
  - Implemented **automated notifications** (email/SMS) for expirations and renewals.
  - Integrated **secure payment gateways** and data encryption.
  - Built **user-friendly subscription management interfaces**.

- **OneIt Website and Application**
  - Designed an **Admin Panel** for product management and KYC verification.
  - Implemented **OTP login**, multi-role authentication, coupon systems, and state-wise pricing.
  - Developed negotiation features for **single/bulk quantities**.
  - Customized websites per user type and optimized application performance.

- **Linkage Global Resourcing**
  - **Admin Management:** Built admin systems for product/website handling with controlled seller access.
  - **Seller Panel:** Enabled sellers to access dashboards only after verification.
  - **Features:** OTP login, role-based authentication, customized websites per user type, and performance optimization.
- **AgroOrbit Website and Application**
  - Developed an **Admin Management system** for products and websites, including KYC verification.
  - Implemented **OTP-based login** and authentication for multiple roles (Super Admin, Admin, Retailer, Seller, Distributor, User).
  - Integrated GST and KYC APIs for business validation.
  - Added features like **negotiation for single/bulk orders, coupon creation (flat & product-wise), and state-wise pricing**.

- **Fabspin – Multi-Store Laundry Management System (Web and Application)**
  - Built a centralized admin panel for multi-store management.
  - Designed order lifecycle APIs (Pickup → Processing → Delivery).
  - Implemented RBAC and real-time order tracking.
  - Automated reporting dashboards.

- **Mr Blue – Multi-Store Laundry Management System (Web and Application)**
  - Developed a multi-role web-based admin management system for laundry stores enabling order tracking, staff management, and centralized store operations.
